E – HOW TO MEASURE

BUST: The chest measurement should be taken as a circumference measurement around your chest and back at the widest point. Stand in a relaxed posture and breathe out.

WAIST: The waist measurement should be taken as a circumference measurement around your waist and back just above your belly button. Stand in a relaxed posture and breathe out.

HIPS: The hip measurement should be taken as a circumference measurement around your hips and bum at the widest part.

INSIDE LEG: The inside leg measurement should be taken from the top of the crotch straight down to the ankle
